

Update on Presidency activities with specific relevance for EPAAC

Anders Møller Jakobsen
Chief Adviser, Danish Ministry of Health

Health priorities of the Danish Presidency of the Council

1. Innovation Agenda: Smart Health – Better lives

- Focus: Strengthening the European welfare- and healthcare technology sectors

2. Chronic diseases with diabetes as a model disease

- Focus: Patient empowerment

3. Antimicrobial Resistance

- Focus: Promotion of more rational use and on strengthening the surveillance of the use of and resistance to antibiotics

Conference on "Health, Climate and Environment" in Copenhagen, 25 April

- *Primary focus:* The impact of ozone depletion and ultraviolet radiation on incidences of skin cancer
- *Three sessions:*
 1. The link between environment, health and specifically skin cancer
 2. The impact from ultraviolet radiation on the development of skin cancer
 3. Panel discussion – ultraviolet radiation and skin cancer – addressing the gaps and future recommendations
