The joint action in the area of comprehensive cancer control will be proposed for the periods from 2014-2017. On 28-29 November 2012 the representatives of EU Member States met in Luxembourg to discuss the content and the organisation of the future joint action. The preparations will continue in the coming months and the final proposal is expected by March 2013.
The information on the current draft proposal is available here.
