

The 4th ICCC (International Cancer Control Congress) has been scheduled for November 3-5th, 2011 at the National Cancer Center, Seoul, Republic of Korea. This is a bi-annual congress for governmental and non-governmental cancer control officials; for physicians, nurses, researchers and health professionals; and patients, advocates, volunteers and all others interested in cancer control.

Please find the link to the programme of the congress [here](#) .

There will be two and half days of scheduled sessions and half of a day for networking and opening and closing ceremonies.

The purpose of the 4th ICCC is to continue to provide an opportunity for a broad constituency of global stakeholders involved in cancer control to work together, share experiences and learn from one another.
